generations

ESB CARRINGTON PRESS RELEASE

Prestigious ESB Carrington Apprenticeship Programme opening soon for applications

27th of April, 2018

Dear Sir/Madam,

ESB, the UK, and Ireland's leading energy company, is seeking dynamic people to join the company to help us deliver our 2025 Corporate Strategy and beyond.

This year it has been announced that in addition to the Apprentice programme in Ireland we are now opening the scheme at Carrington Power Station, Manchester.

Applications will be accepted online from the 8th of May, 2018 and will remain open until the 5th of June, 2018

ESB is known for its high-quality apprenticeship programme, which offers on-the-job experience as well as classroom based learning, see below

"The quality of our apprenticeship programme ensures that ESB has the skills and expertise necessary to maintain a world-leading electricity system, capable of meeting Ireland and the UK's evolving energy needs."

"Apprenticeships are invaluable in developing high quality skills which are needed in a modern economy and ESB has been very well served by our investment in apprenticeships over many decades. Irish & the UK industries and businesses can greatly benefit by the expansion of apprenticeships into other sectors of the economy."

Pat O'Doherty - Director

We wish to invite interested candidates to an open day on the **24th of May, 2018**. This will give an opportunity to meet the team, ask questions and walk around the plant.

Find attached the flyer that will include all details relating to this campaign

Please confirm who at the centre is the most appropriate person to support this campaign, in order that further discussions can take place.

Pat Tunney – Maintenance Manager – patrick.tunney@esb.ie

Carrie Healy – HR Recruitment and Selection – carrie.healy@esb.ie
